Notes

Details such as measure, weight indications are approximate figures only. We reserve the right to change colours, printable areas, technical details or designs.

To achieve effective branding logo display, we recommend the following:

- For the front chest and mid back, we suggest a maximum width of 30cm for logo, with other area being scaled accordingly.
- At least 5cm below collar.
- At least 5cm away from the edge of the garment.

To achieve effective branding logo display, we recommend the following:

- Maximum width of logo is 10cm for size L, other size will be scaled accordingly.
- At least 5cm away from the edge of the garment.

Please note that designs that extend from the body of the item to the neckline or collar, often may not match up perfectly due to differences in curves of the material

When a pattern extends across 2 panels, such as connecting the front and back panels in a side seam, often designs will not perfectly align. Generally there's about 0.5cm allowance for this mismatch
