To achieve effective branding logo display, we recommend the following:

- For the front chest and mid back, we suggest a maximum width of 30cm. For back, width also taking under armpits.
- At least 5cm away from the edge of neckline.

To achieve effective branding logo display, we recommend the following:

- Minimum width of logo is 10cm for size L, other size will be scaled accordingly.
- At least 5cm away from the seam of the neckline.

Please note that designs that extend from the body of the item to the neckline or collar, when they are not perfectly aligned, may not match up perfectly due to differences in curves of the material.

When a pattern extends across 2 panels, such as covering the front and back panels in a size label, often designs will not perfectly align. Generally, there's about 0.5cm allowance for this mismatch.
