Description

Rectangular USB hub made from natural bamboo. The hub features two USB A and one USB Type-C output, and a USB A 2.0 input. Certain phone models will be incompatible with the Type-C output for power delivery and data transfer. Bamboo is a natural material and because the plant is fast growing, it places less demands on natural resources and produces a material that is durable and versatile. Bamboo can also produce unavoidable variances in the grain pattern, colour and branding.
